

## **SOLVER, INC. ATTAINS TWO MICROSOFT GOLD CERTIFIED COMPETENCIES**

### Microsoft Business Solutions and Database Management Solutions

Los Angeles, California February 2, 2007 —Solver, Inc. a leading business intelligence, reporting, and analytics provider has attained Gold Certified Partner status in the Microsoft Partner Program with competencies in Microsoft Business Solutions and Database Management Solutions. As a Gold Certified Partner, Solver has demonstrated expertise with Microsoft technologies and proven ability to meet customers' needs. Microsoft Gold Certified Partners gain access to some of the most current and valuable resources available in the industry, including technology updates and partner-exclusive training.

"This is a significant milestone for Solver," said Nils Rasmussen, Principal of Solver, "As a Gold Certified Partner, it increases our traction inside the Microsoft technology and deployment ecosystem and positions us well for the huge number of Microsoft product releases this year including Performance Point Server 2007."

"Microsoft Gold Certified Partners, which have certified expertise and direct training and support from Microsoft, can build a positive customer experience with our technologies," said Per Solli, Principal of Solver "Today, Microsoft recognizes Solver, as a new Microsoft Gold Certified Partner for demonstrating its expertise in providing customer satisfaction with Microsoft products and technology."

Achieving the Microsoft Competency certification requires a combination of employee technical certifications, multiple customer references and other business measures. Data Management Solutions focuses on business intelligence, data warehousing, SQL 2005, and in-depth reporting solutions as well as associated development tools. Microsoft Business Solution focuses on providing financial and supply chain management and customer relationship management (CRM) capabilities. The Microsoft Business Solutions competency provides a unique opportunity to develop a trusted advisor relationship with customers' key decision makers and is completely consistent with Solver's focus on business intelligence, reporting, budgeting, and analytics. In the Microsoft Business Solutions space, Solver works with Microsoft Dynamics GP (formerly Great Plains), AX (formerly Axapta), and SL (formerly Solomon), and CRM.
